

URUGUAY EDITOR KILLED IN DUEL

Montevideo, Uruguay, April 2.—Political excitement prevailed in this city last night as a result of the death of Washington Beltrán, editor of the newspaper El País, in a duel with former president José Batlle y Ordóñez. After Batlle's election in Uruguay, the Nationalists accused the "Batlistas," the party headed by the former president, of fraud in the election. Batlle was the champion of fraud. It was this attitude that led to the fatal duel.

The opponents met in the midst of a pouring rainstorm and waited for three hours for the rain to cease. Because of the rain the two men decided to keep on their hats, but Batlle changed his straw hat for a felt, so that both might be on even terms.

Standing 25 paces apart, the duellists were given the word to fire, both missing on the first exchange. Batlle fired a second shot, but he was struck by a bullet from Batlle's pistol in the chest, mortally wounding him.

There is a law against dueling in Uruguay, but it is understood that one of the conditions agreed to by Batlle and Batlle was that neither would prosecute the other in case of injury. This was in fact the case.

Batlle, who was twice president of Uruguay and now is a member of the national administrative council, voluntarily gave himself up to the police, following an order by the state prosecutor for his arrest, as well as that of the doctors, seconds and other persons connected with the duel.

He is being held incommunicado in a police station, and will be interrogated Saturday.

Indians Scared By Search Light On Army Truck

The Indians of the Mesquero reservation in New Mexico got a good scare the other day when the giant army recruiting truck now on exhibition at 218 West Franklin street passed through there en route to El Paso from Amarillo, according to Lieut. Hal Daniel, who was with the truck.

It wasn't the truck that frightened the Indians, Lieut. Daniel said, but the giant searchlight the truck carried behind it. The truck came lumbering through the reservation at night and threw its penetrating beams all over that part of the country. The Indians were in every direction, the army officer reported, thinking the sun god had taken a notion to come back and pay them a visit in the dead of night when nothing more effulgent than the moon should have been on duty.

The searchlight and truck, recruiting officers say, have attracted considerable attention among the pale faces of El Paso because of the unusual size of both. The truck is a 24 tonner and the head stands six feet above the street. The giant searchlight is carried behind the truck on a trailer when not in use. When it is desired to use the light it is mounted on the truck. It can shoot a ray of light for 100 miles in level country.

The El Paso recruiting station accepted 21 enlistments this past week, as follows:

Wesley Oliver Dunahoo, of Fort Worth, Texas, for the coast defense of San Francisco; William J. Frye, of Wheeling, Texas, for the fourth engineers, Camp Dodge, Iowa; Kelly Lank, of Tulsa, Okla., for the third field artillery; Glenn Porson, of Bedford, Texas, for the third field artillery; and William H. Noalline, of Edinburg, N. Y., who enlisted for his old outfit, troop K, eighth cavalry.

An example of the energy shown by the recruiting service in securing recruits is the case of Floyd Sims, of Refugio, Texas, is cited. Sergt. A. M. Dwyer, in charge of the station at Sweetwater, Texas, heard of this man at 11 o'clock Thursday morning, covered the distance 37 miles, and was back in Sweetwater with his man at 2 o'clock in the afternoon.

The Amarillo station, which is the star producer of the El Paso district, closed the month with 58 acceptances.

The Hague, Holland, April 2.—The general advance of the German government troops along the entire front against the insurgent forces in the Ruhr and neighboring industrial regions which began at 7 o'clock Friday morning, has been very successful, according to well informed Dutch sources. Companies of the Red army have been named after prominent Russians and other socialists, bearing such names as "company Lenin," "company Trotsky" and "company Karl Liebknecht." HUNGARIAN SAYS TREATY ONLY TEMPORARY IN NATURE

Budapest, Hungary, April 2.—Count Albert Apponyi, returning from Paris today for a conference with Admiral Horthy, Hungarian regent and party leader, declared that peace treaties between the allied powers and the central empires were only temporary in nature.

MEAT CUTTERS WALK OUT; FIGHT ON FOR CLOSED SHOP

Phoenix, Ariz., April 2.—A partial walkout of meat cutters and packing house employees today was announced by the Phoenix Union of Meat Cutters, the Tri-State Packing company and the Palace market, three of the largest local concerns. The union stated that of about 100 employees about 20 failed to appear for work this morning. The union action, they said, followed their refusal yesterday to sign contracts presented by the meat cutters and slaughter house employees' local union. It was said, no changes in wages or hours were made, but which would have made the union's position untenable. The companies signified their intention not to accede to the union stipulations even if the latter refused to become such that they had to import meat to supply their trade.

Ill Health Often Due to Neglect of Kidneys and Liver

Many organs take part in assimilation of food, and a number are active in eliminating those portions of the food which are not taken into the blood for the rebuilding of the body. Of the eliminative organs, the liver and the kidneys are of major importance, and are most likely to be overworked and become diseased. When such is the case, various troubles of a digestive and eliminative character occur, and such troubles are so frequent and so common that it is absolutely necessary to find some relief. Warner's Safe Kidney and Liver Remedy was compounded over 40 years ago to help relieve the work of the kidneys and liver. How successful it has been is evidenced by its widespread sale and its value is attested by an immense number of appreciative letters which through these many years have put it in the severest tests with the most satisfactory results.
